

StopLightReport

The iAppSys Oracle License Audit & Compliance Solution

Is your Oracle Environment in compliance?

See at a glance where you can save money by moving to the cloud.

Our proprietary software and auditing processes identify **RED** (under-licensed), **YELLOW** (under-optimized), and **GREEN** (shelved software, excess costs) areas of your environment – quickly, securely, and confidentially.

Our team of Oracle Cloud-specialized engineers and certified licensing and asset management specialists use the StopLight Report and the iAppSys BOOST program to help our clients launch their businesses into the Oracle Cloud with the most cost-effective and optimized Cloud footprint possible.

The iAppSys StopLight Report

STOPLIGHT REPORT + BOOST = CLOUD SAVINGS

BOOST is the iAppSys rebate program optimized to support your launch into the cloud with **FREE Oracle Cloud Credits**. When combined with the **StopLight Report**, your cloud program will receive a tailored solution that saves your business time and money.
